Hello Jacqueline and Target Store Relations,

Thank you for your response.

It has been six days. I have not received AV evidence sought, nor response from the local store concerning actions and results. Please provide contact information of local security (phone, name and email).

I will not except evasion without favorable remedy. I am highly offended by local security, especially in lieu of the incidents context within a protracted situation.

Hello Target Store Relations,

I will not accept evasion of these legal issues without favorable remedy. I am highly offended by local security, especially in lieu of the incidents context within a protracted situation. I have issues to communicate with them about in this matter. You and they are obligated by law to deal with them responsibly! Send what has been requested!
